

Online and Mobile Banking

June 2021

What are the Canstar Online & Mobile Banking Awards?

The Canstar Online and Mobile Banking Awards use a sophisticated award methodology unique to Canstar that compares the offering of features on both the online and mobile banking platforms across Australia. The two awards recognise institutions who offer quality online and mobile services to further enhance customer experience.

Canstar's Online and Mobile Banking Awards are awarded to the Bank of the Year and the Customer Owned Institution of the Year, which considers mutual banks, credit unions and building societies. The institution which cumulatively receives the highest score across the areas of consideration will be awarded the Online Banking Award or Mobile Banking Award.

How is the Canstar Online Banking Award calculated?

Each institution's online and mobile banking platform that is reviewed for the Canstar Online Banking Award are awarded points for the array of features available on the platform. These features offer functionality under the categories listed below. Points are aggregated and weighted relevant to the importance of each category to achieve an overall functionality score which is combined with the Customer Satisfaction results from Canstar Blue's Most Satisfied Customer Award – Banks to achieve a total score.

Customer Satisfaction

Customer Satisfaction scores apply only to the Bank of the Year Award. Canstar measures and tracks customer satisfaction amongst Australian adults across a range of financial categories via ISO 26362 accredited research panels.

The sample is broadly representative of the Australian population in terms of gender, age and location, and is based on ABS Census data. Only people who have identified their primary business banking institution are able to answer the questions and be included in the survey results.

The Customer Satisfaction Score is based on weighted scores for the drivers of overall satisfaction. Weights for individual factors are determined by measuring the influence of each factor on overall satisfaction. The weights attributed to these factors are outlined below:

How often are products reviewed for Star Ratings and award purposes?

Ratings and awards are recalculated annually based on the latest features offered by each provider. Canstar also monitors changes on an ongoing basis. The results are published in a variety of mediums (newspapers, magazine, television, websites, etc.).

Does Canstar rate all products available in the market?

We endeavour to include the majority of product providers in the market and to compare the product features most relevant to consumers in our ratings. However, this process is not always possible and it may be that not every product in the market is included in the rating nor every feature compared that is relevant to you.

Does Canstar rate other product areas?

Canstar researches, compares and rates the suite of banking, wealth and insurance products listed below. These Star Ratings use similar methodologies to guarantee quality, consistency and transparency. Results are freely available to consumers who use the Star Ratings as a guide to product excellence. The use of similar Star Ratings logos also builds consumer recognition of quality products across all categories.
